### 'TWO SOLDIER' FIGHTS FOUGHT

Lieutenant Declares the Measure  
Would Turn Militia at Riots  
Into Suicide Squads.

Atlanta military officers are up in arms against two bills placing the National Guard under control of city authorities. William B. Coburn, second lieutenant of Company K, says he and at least ten other officers will resign if the bills pass, and he would not be surprised if every officer of the Fifth Regiment of the National Guard walked out of the service, as well.

Adoption of the two bills would, according to Lieutenant Coburn, convert the national guard into an "infernal fire-breathing subject in the hands of judges, sheriffs and magistrates. In case of service during riots they could be sent out with unloaded guns and placed at the mercy of mobs who would be glad to disperse, Mr. Coburn said, which is the same thing, he maintained, as converting the military into a suicide squad."

LEE'S EVIDENCE IN FRANK CASE DISCOUNTED

Attorney Denies Confession—Aserts Confidants Put the Watchman in Background.

never had done before. While the prosecution will get great weight on this testimony, the defense will seek to show that it is entirely without significance.

Admitting that Frank never called Lee before in the evening, Frank's attorneys will present evidence to show that he had called repeatedly when the former night watchman was employed at the factory, and that he was led to call the night of April 24 because a discharged employee, J. M. Gantt, had been in the factory and he wished to make certain that Gantt had left.

Those concerned in the trial of Frank are awaiting with interest the outcome of the fight over the subpoena duces tecum issued by the defense. The State has announced that it will combat the enforcement of these subpoenas and has branded them as a subterfuge of Frank's lawyers to discredit the witnesses introduced by the prosecution.

If the State fails, it will have to produce in court all of the affidavits and statements made by its principal witnesses. The defense will be able to use these to make a close comparison of the oral testimony with that which was sworn to weeks before.

In the event that any of the witnesses give testimony which is contradictory to the statements in their affidavits the defense will have a position to impeach and discredit their testimony. Solicitor General and Attorney Frank A. Hooper has announced that he will not prosecute the defense and have announced that they do not propose to admit the affidavits of the witnesses to the defense if the State will not prosecute them in the trial.

RESIGNATION OF MILITARY MEN THREATENS

Lieutenant Says "Tin Soldier" Bill Would Turn Militia at Riots into Suicide Squads.

Atlanta military officers are up in arms against two bills placing the National Guard under control of civil authorities. William B. Coburn, second lieutenant of Company K, says he and at least ten other officers will resign if the bills pass, and he would not be surprised if every officer of the Fifth Regiment of the National Guard walked out of the service, as well.

Adoption of the two bills would, according to Lieutenant Coburn, convert the national guard into an "infant in-horn soldier," subject to orders of judges, sheriffs and mayors. In case of service during riots they could be sent out with unloaded guns and placed at the mercy of mobs they court to disperses, Mr. Coburn said, which is the same thing, he maintained, as converting the military companies into suicide squads.

Civil Authority Fixed. The two bills are known as House Bill No. 18, introduced by Representative Ed Wahlwendler, H. H. Swift and J. C. Slade, of Muscogee, and H. H. Swift, of Wilkes, and House Bill No. 19, introduced by Representative Wahlwendler, Swift and Slade, of Muscogee, and William Wimberly, of Bibb. House Bill No. 18 repeals the act of session of 1912, which repealed section 1415 of the Code of 1910. The bill re-established the authority of judges, sheriffs and mayors to call out the local militia and give orders.

House Bill No. 19 makes the militia when called out by the Governor subservient to such civil officers as the Governor may direct. "We object to this," Lieutenant Coburn said to-day: "You may remember some years ago in 1923 the militia was sent to Savannah to protect prisoners. We reported to a judge and were under his control. The first thing that was to take away our bullets. He said he didn't want the militia to hurt anybody. In three or four days the rioters ascertained we had no ammunition, and they proceeded to run over the militiamen.

"Some of them tried to pass the cordon and were killed. Favor Limiting Call. There is intense feeling against the National Guard, and opponents of it are harping on the Augusta episode. That shooting is the reason those two bills were introduced, and also that resolution which says the National Guard was guilty of murder there."

Mr. Coburn said the National Guard men would not object to a law restricting the power of the Governor to call them out; in fact, he thought they would welcome such a law, as the guardsmen were tired of being "called out on every whimical idea."

We Propose to Be the Architect To-morrow of One Hundred and Twenty-Five Women's Good Fortunes. \$10.00 and \$12.50 Linen Dresses \$4.45

But mind you, one hundred and twenty-five in all. A maker who has favored us with some of the finest values we have lately offered has outdone himself! Here are \$10.00 and \$12.50 linen dresses at \$4.45. And just a word about the linen. It is a crackling, fine quality of French linen, not a thread awry, not a rough spot, as smoothly and evenly woven as a piece of lawn—reckon the cost of the linen in these dresses. \$4.45 is reached before a stitch is taken, before a pattern is laid on the linen. You may choose from tan, leather, two shades of Copenhagen, pink, lavender and white. Those in colors have white piping and buttons. The white ones may be all white or white piped in colors. A flat collar of sheer batiste edged with Valenciennes lace, or a collar of self-material overlaid with heavy lace. They are wonderful values! Charming styles!

29c For \$1.00 Waists. 29c for a \$1.00 waist. And it may be (if you are to select but one) one of several styles, a soft and light and dainty lingerie waist with Dutch or high neck trimmed with laces and embroideries, a tailored skirt of linene or of French lawn, plain but for the tucks. But who will want just one?

79c For \$2.50 to \$3.50 Waists. Gathered at 79c are a number of \$2.25 to \$3.50 waists that have become a bit mussed from handling. It is a happy collection. There are soft waives and lingerie cloths showing pretty bits of dainty and shadow laces and embroideries, and there are tailored linen waists, Dutch and high neck, half and full length sleeves.

### SLADE IS CAUSTIC IN CRITICISM OF STATE MILITIA

Law Needed to Prevent Cowardly Shooting of Innocent Persons, He Declares.

Members of the Georgia National Guard should be held pending before the Legislature involving for placing that body under the control of the civil authorities be adopted, drew sarcastic remarks from Representative John J. Slade, of Muscogee County, father of the bill, Wednesday morning.

Slade declared such a law would convert them into a "militia squad."

"The military are welcome to commit suicide rather than go down to the hands of innocent persons, and what else can we do the Augusta tragedy? The shooting at an innocent woman and child was cowardly in the extreme, and I believe in the curbing of the authority of any body of men to do such a thing."

Representative Slade is the oldest member of the Legislature, but is an active and healthy looking man as any man in the house. The "Herald" has been soldierly, which some of the military officers of the Fifth Regiment declare they will practically become with the passage of such a law, brought a smile to the face of Mr. Slade. "Quite a combination—18 karat in his military becomes a suicide squad," he said.

Slade Has Aid. While the bill was introduced into the House of Representatives by Slade, Mr. Slade originated it, Mr. Slade is not in the fight for its passage.

Mr. Slade has expressed his determination to resign in the event the bill is adopted.

### FRANK IS WILLING FOR STATE TO GRILL HIM

Accused Man Declares He's Anxious Even For Prosecution to Cross-Examine

Surpassing in interest any of the other testimony at the trial of Leo M. Frank will be the story related on the stand by the accused man himself.

That Frank will make a detailed statement of his movements on the day that Mary Phagan was murdered is regarded as one of the certainties of the trial.

It was learned Wednesday that Frank was desirous of going even further than this by being sworn to submitting to a cross-examination by the attorneys for the prosecution.

He will request his lawyers, Luther Z. Rosser and Reuben R. Arnold, that the privilege of cross-examination be extended to him.

The defense constantly has refused to divulge any of the details of its plans for the trial and for this reason it is impossible to say positively that Frank will be cross-examined.

That it is not as all improbable, however, is indicated by the readiness with which Mr. Rosser permitted Frank to go before the coroner's inquest and answer every question that was propounded to him.

"I was so convinced of his innocence," said Mr. Rosser at that time, "that I didn't hesitate an instant in giving consent to any sort of examination that they might give him."

As a guarantee of the coroner's jury, the ordeal at the trial will be more severe.

At the trial Frank will be confronted by two trained and hostile lawyers who have announced their intention that he be the man guilty of the murder of Mary Phagan.
